“I am really at a loss for words. Even though I never met the Allen he was always someone I looked forward to chatting with here on RC.
A bunch of us would always quote each other when one would say something funny or incriminating. Then post it back in the chartroom days later when the quote is completely irrelevant and out of context but hysterically funny....well at least to us...the ones who knew the context of the quotes.
“AllenBall : anyone know of a revit model for a “fat boy door” its a door with a 3’ door and a 1’ door?”
“AllenBall : im just kidding i like u erl”
“AllenBall : i am fat, and god said its ok for me to be fat”
“AllenBall : shut up erl we all know that im fat and cant spell, so shut up!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!”
“AllenBall : its just the way i was born”
To explain a little context to the quotes. We all were friends with Allen on Facebook and have seen pictures of him and we all know he is not fat...but some of us liked to poke fun at each other and somehow Allen was deemed the fat kid. lol HDD I believe went even as far to photo-shop a picture of him making Allen appear fat. If I could find it - Id post it here.
I never realized how much Id miss someone who I’ve never met.....
RIP Allen! You will be missed, d00d!”
